**Brief Report:** On Job Training [OJT]

**For Sugar Factory:**

Sugar industry is the second largest agro based industry in India. An on-the-job training report for the sugar industry would document the experience gained during the training period, focusing on key aspects of the sugar manufacturing process. It would include details about the company profile, the various steps involved in sugar production, and the technical and operational aspects of the industry. The report might also discuss the company's training methods, safety protocols, and any specific technical outcomes or skills gained during the training.

To studied the impact assessment of sugar cane processing industry.

To studied the sugar cultivation and processing.

To studied by product in sugar industry.

**Coordinator** (Dr. S. S. Mohite)
